

NYSGISA Education Committee Meeting Minutes

Dec, 2021

Attendance: Paula (Chair), Susan, Mike, Eileen, Wayne, Chris

Oct Min approved with correction of Kasad's name

We spent much of the time discussing consent forms for our podcasts. In the end, we decided on an informal policy where we ask the person being interviewed if they are ok with the material being posted publicly to the NYSGISA webpage, and their response is our ok.

I then checked the association website. I thought I found something already there, but can't find it again!

Another thought would be to make the disclaimer part of the talk.

In the end, the board has to ok things that go up on the website. I sent all our links to min and podcasts to Anne and Carole and they will get back to us when posted. One issue is space.

The committee also talked about making this part more integrated with professional development. Jessica might be a good person to talk to in that regard.

Other suggestions were library folks

We then discussed ideas about a stand-alone Ed meeting not necessarily integrated into the geocon, or 1 day K-12 and 1 day higher ed, or half and half of a day.

One question is how do we get people to pay for these things if their employers don't contribute or pay.
